Ketçap rule

If the word ends with this consonant:	Said consonant turns into:	Example
k →	ğ-g	
t →	d	
ç →	c	
p →	b	

Voiceless/Hard Consonants

Whenever a word ends with any of these voiceless/hard consonants, we add a suffix that starts with a hard consonant too:

f, s, t, k, ç, ş, h, p

**Remember all the hard consonants with the
FISTIKÇI ŞAHAP story**

Imagine you want to eat baklava in Turkey. You went to the baklava shop and a man offered you baklava with pistachio (= fıstık, antep fıstığı). You asked the name of the baklava guy and he said his name is "ŞAHAP".

Benim adım
FISTIKÇI ŞAHAP :)

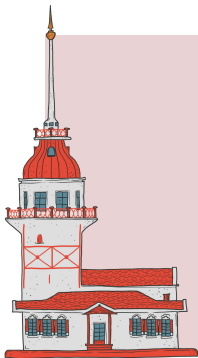

Remember your pistachio baklava seller friend: **FISTIKÇI ŞAHAP**.

(now drop all the vowels to find the hard consonants)

You can write some examples here:

Instructions

Printable stickers:

If you want to print the stickers, we recommend you to do it using an adhesive paper. This way you'll be able to print the sticker sheets, cut the different stickers using scissors or a cutter. Then, you just have to peel the paper off and place the sticker where you want to.

Digital stickers:

If you want to use the stickers in a digital way, just follow these steps:

- 1) first, download the zip folder in your tablet or iPad and unzip it by extracting all the png files.
- 2) Create a folder for the stickers and put all the png files there. If you want to, you can also create a Google Drive folder and keep the stickers there if it's easier for you.
- 3) Whenever you want to use a sticker on your iPad/tablet while working on any of the worksheets, just click on "insert image", open the folder with the stickers and choose one. Then you accommodate the sticker in the place where you want it to be. The stickers are already cropped so you don't need to cut anything. Make sure that you're using a note-taking app like Noteshelf, Goodnotes, Notability, CollaNote, etc.

Extra tip: If you use the Goodnotes app, once you've opened the worksheets there is a tool with this icon . Click there and upload all the stickers you want so that you can access them in an easier way later on. After uploading the stickers, when you want to use one you'll just have to click on the same  icon and select the stickers you want.

NOTE: You can adjust the size of the stickers and make them bigger or smaller after you have selected them and placed them on the worksheet.
